Python /Django developer | Web Application

Python and Django Developer with hands-on experience in building **web applications, REST APIs, and responsive front-end interfaces**. Skilled in **problem-solving, debugging**, and delivering clean, scalable code. Passionate about **full-stack development** and eager to contribute to real-world projects while continuously learning new technologies.

Projects

Comcast Career Website Clone

- Built a front-end clone of the Comcast Careers website with sidebar navigation and scrolling features.
- Practiced web design skills and improved problem-solving in layout and responsiveness.

CommerCast – Full Stack Django E-commerce Platform

- Built a full-featured e-commerce web app in Django with product catalog, cart, secure checkout, admin product management, customer addresses, and reviews.
- Built a full-featured e-commerce platform using Django, SQLite, HTML, CSS, and Bootstrap
